Change in Polymerization Rates w/ Dimerization per Formin

Minimum PP length of 4 without interruptions

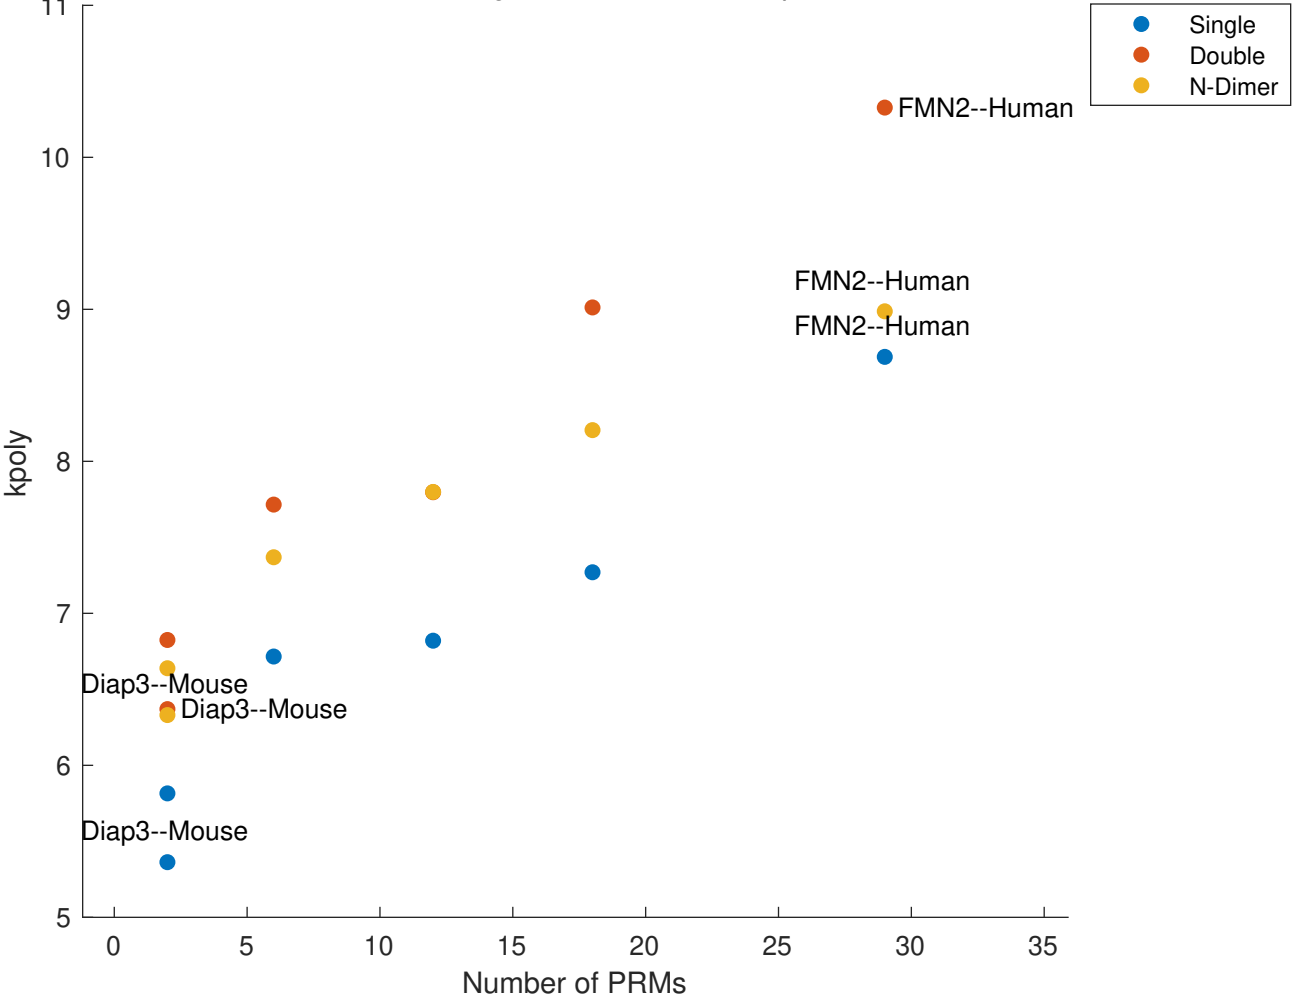

Change in Polymerization Rates vs Number of PRMs
Minimum PP length of 4 without interruptions

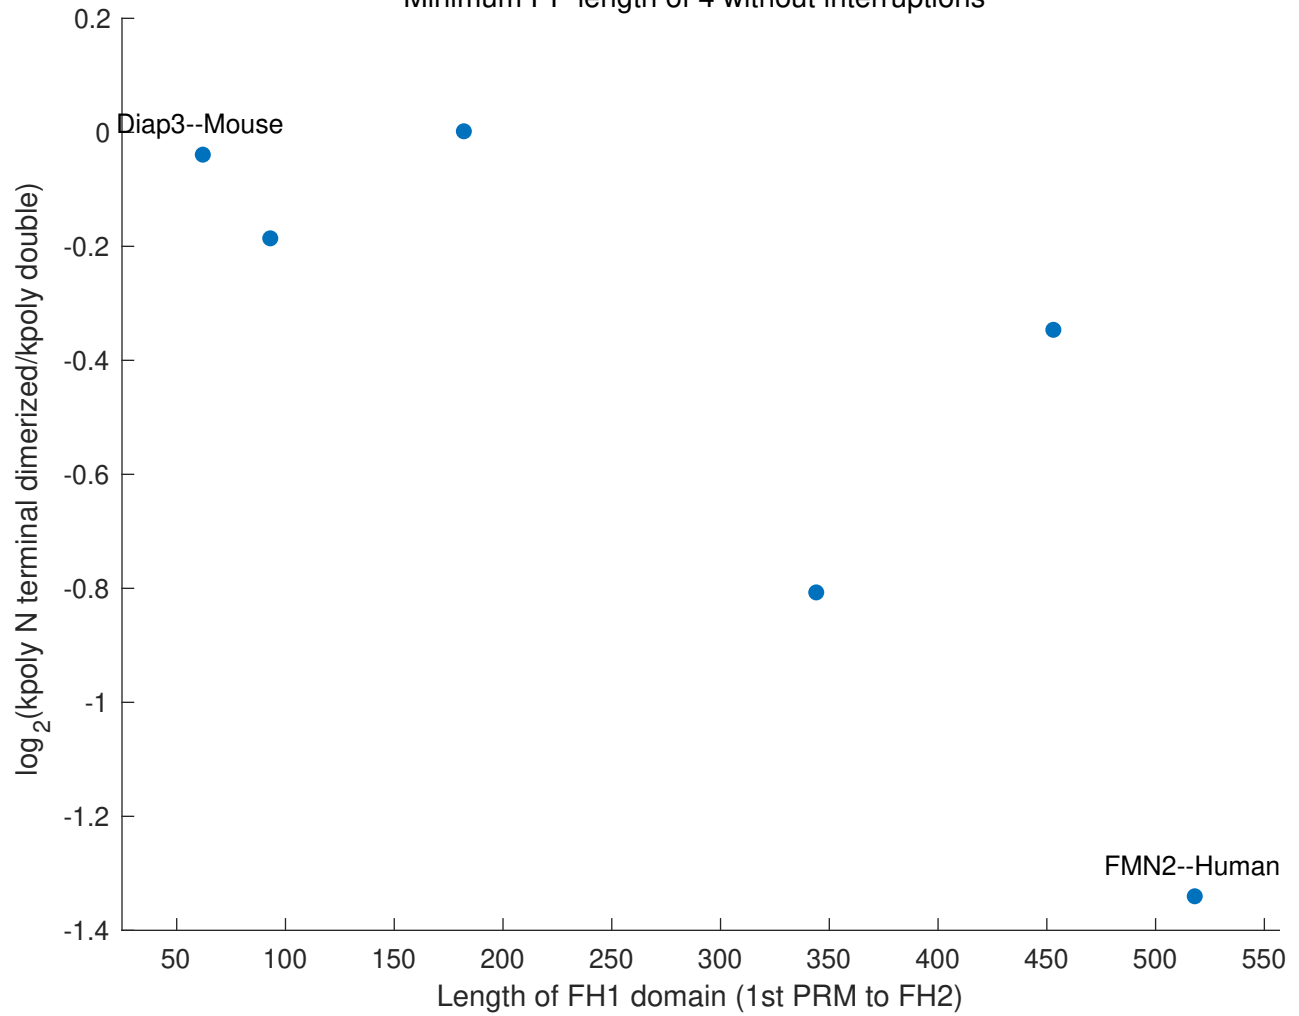

Polymerization Rates vs Number of PRMs

Minimum PP length of 4 without interruptions

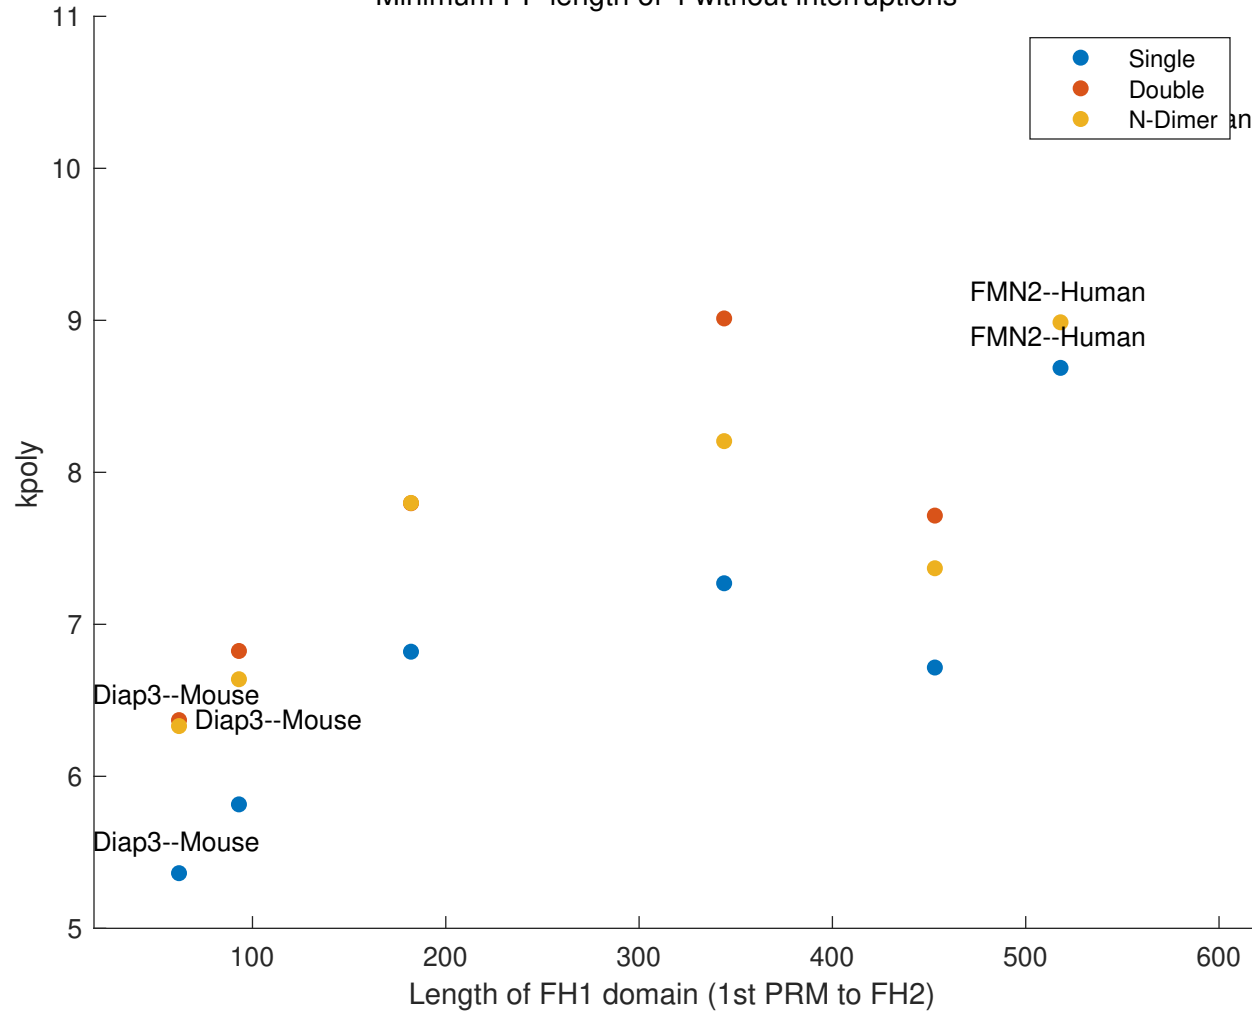

Change in Polymerization Rates vs Length of FH1 Domain

Minimum PP length of 4 without interruptions

Polymerization Rates vs Length of FH1 Domain

Minimum PP length of 4 without interruptions

Change in Polymerization Rates vs Mean PRM size
Minimum PP length of 4 without interruptions

Change in Polymerization Rates vs Mean PRM size x Number of PRMs

Minimum PP length of 4 without interruptions

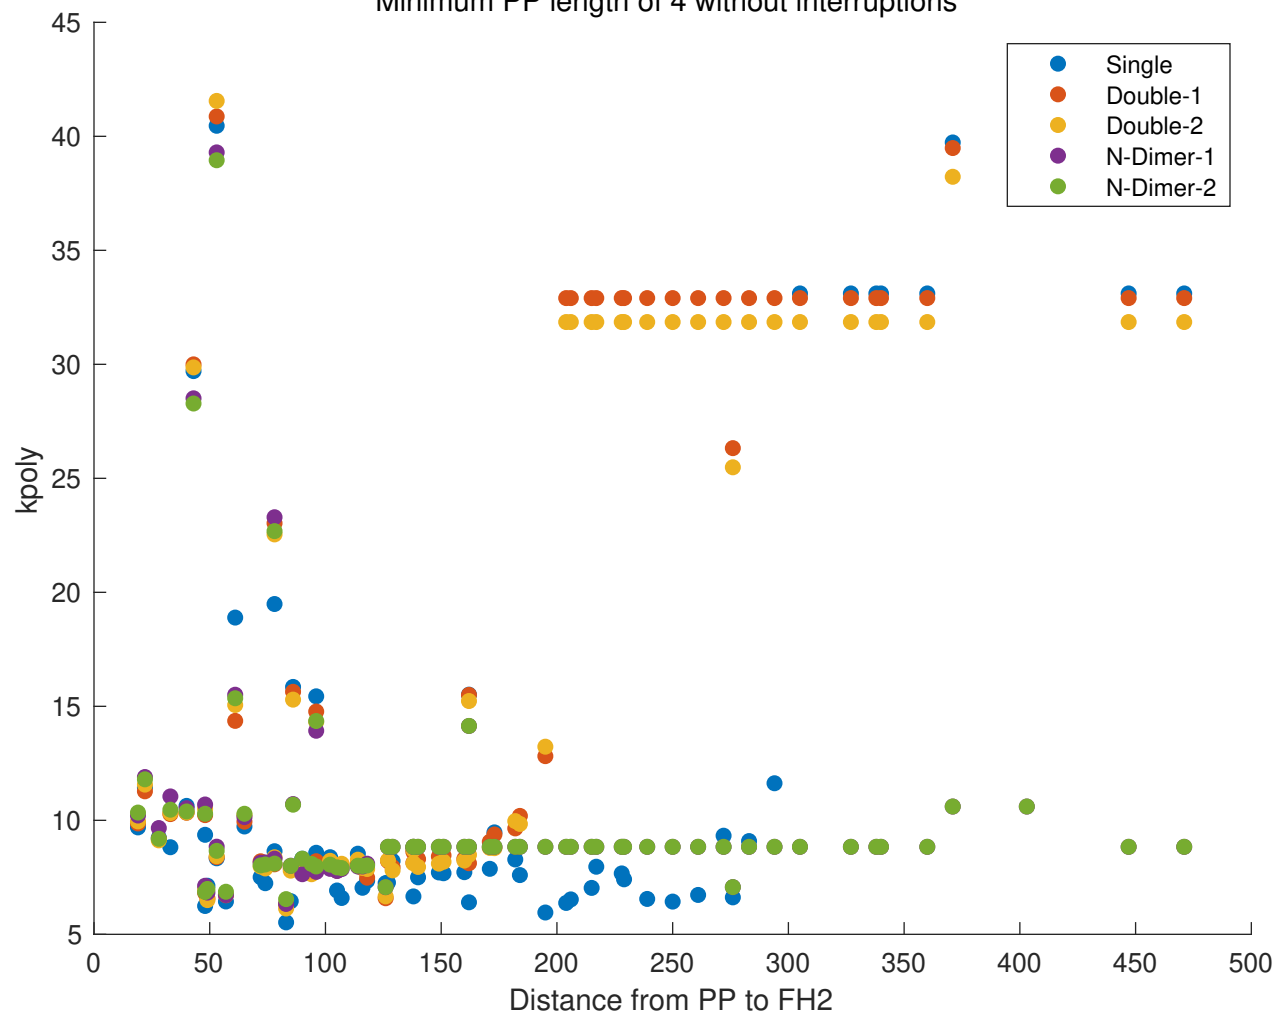

Polymerization Rates vs. PP length per individual PRM

Minimum PP length of 4 without interruptions

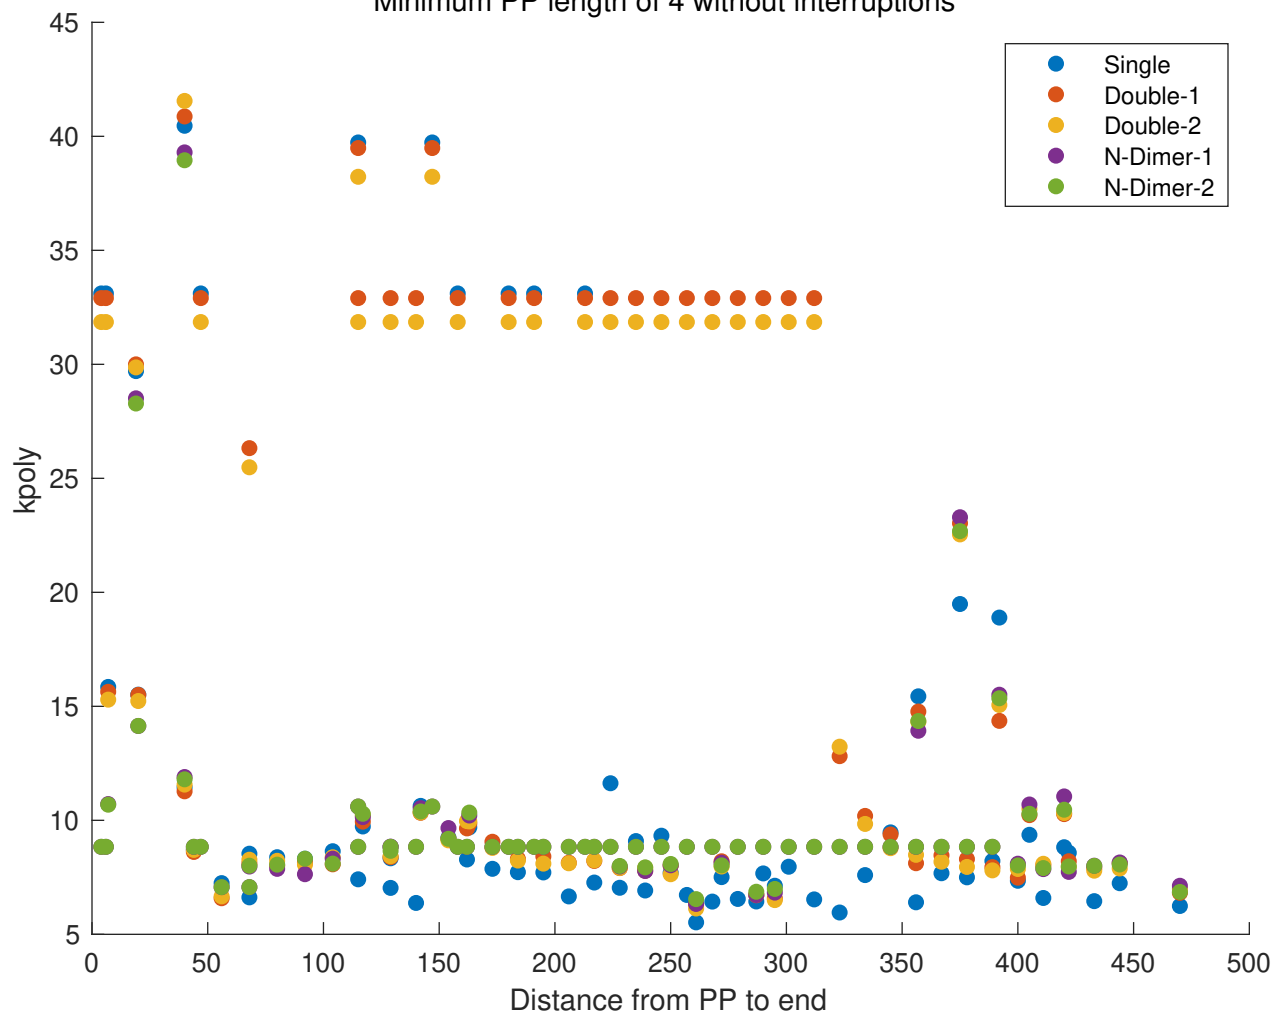

Polymerization Rates vs. PP dist to FH2 per individual PRM

Minimum PP length of 4 without interruptions

Polymerization Rates vs. PP dist to end per individual PRM

Minimum PP length of 4 without interruptions

Change in Polymerization Rates vs. PP length per individual PRM

Minimum PP length of 4 without interruptions

Change in Polymerization Rates vs. PP dist to FH2 per individual PRM

Minimum PP length of 4 without interruptions

Change in Polymerization Rates vs. PP dist to end per individual PRM

Minimum PP length of 4 without interruptions
